

A New Twist on Traditional Design

INTRODUCING THE SIMONE COLLECTION OF KITCHEN FAUCETS BY MICO DESIGNS

MICO Designs brings a fresh look to traditional faucets with their new Simone Collection of chic kitchen fixtures. This distinctive series has classic lines and an elegant silhouette, along with soft curves and gently rounded features that are as pleasing to the eye as they are to the touch. This luxurious faucet features intricate detailing such as raised trims and a finial-like topper that elevate the design of the entire kitchen. The Simone faucet makes a big style statement and is equally at home in a vintage-inspired space or in a fully modern kitchen with all the latest bells and whistles.

As part of MICO's traditional collection, the Simone is certain to be the beautiful yet hard-working centerpiece of any kitchen. Its high-arch spout accommodates even the largest piles of dirty pots and pans, while a convenient side sprayer is nearby for quickly rinsing dishes or washing fresh produce. In keeping with exacting brand standards, Simone faucets are crafted in Italy with the finest components. Each fixture is made from lead-free solid brass and includes premium features such as ceramic disc cartridges and stainless-steel inlet hoses. Each Simone faucet is minutely finished to flawless perfection in a choice of four metallic finishes, including chrome, polished nickel, satin nickel, and oil-rubbed bronze. As with all MICO products, Simone faucets are built for years of reliable performance and lasting beauty.

Discover a new way to embrace traditional design with the Simone kitchen faucet series by MICO Designs. Never stuffy, always on-trend. Learn more about the Simone Collection or any MICO product by visiting micodesigns.com.

ABOUT MICO DESIGNS

With design headquarters in Scottsdale, Arizona and production centers in Italy, MICO Designs is a global brand on the leading edge of innovation in fine faucets and fixtures for the kitchen and bath. Under the leadership of founder and creative director Michael Issacs, Mico has set the highest standards for design and craftsmanship, continually translating industry trends into new inspiration while insisting on exacting protocols for quality and service. The company reinterprets traditional designs into fresh looks, offering styles to compliment a wide array of decors, from classic to contemporary. Mico faucets are built to last a lifetime, using solid lead-free brass, premium ceramic disc cartridges, and amazingly durable finishes for years of reliable performance and enduring beauty. Mico offers an extensive line of faucets and bathware with coordinating accessories to create a fully cohesive design space. Their continuing commitment is to be excellent in what they do – every faucet, every time.
